ANTIVIRAL CERTIFICATE

PINTURAS EUROTEX - Spain

COMFORTEX AG+

Por la presente declaramos que el producto probado "**Comfortex AG+**", protegido con **Sanitized® Preservatives** muestra una reducción de logaritmo viral de 3,72 (99,98%) contra el **human coronavirus NL63** con 2 horas de tiempo de contacto en condiciones probadas según la norma ISO 21702:2019 y por lo tanto se considera una **pintura antiviral**.

This document does not prevent from the registration of biocidal products when sold as such. Please go into touch with your responsible SANITIZED partner to get further information for the antimicrobial claims you can make on your paint, using our SANITIZED product.
